

Post

TECHNICAL DATA

Key Features

Tube made of S235 structural steel (TS EN 10025-2).

Dimensions: $\text{Ø}42 \times 2.5 \text{ mm}$ (outer diameter \times wall thickness).

3.28 kg—easy one-person handling and positioning on site.

No integrated fastener; connections are made with system clamps/adaptors.

The post shall be electrogalvanized. A coating in accordance with EN 12811-2 may be specified.
